

DEDUCTIONS

1. Students would be more satisfied towards the institute on improving these facilities :
 - a. Events, Workshops and guest lectures should be increased for good practical exposure.
 - b. Administration should be more responsive towards students' needs and proposals .
2. Students who are joining because of institute's brand, are not considering basic needs such as faculty, infrastructure and food while rating.
3. Students who joined the institute with branch as their preference are not surveying about food and infrastructure in prior.
4. Faculty teaching which is rated as 'average' by students should be improved.
5. More than 80% students have branch as preference.
6. Students who are feeling food quality and gym are bad and who gave rating as 'average' and have a good CGPA are not willing to recommend institute to others.
7. Most of the students are feeling that food quality, gym, hostel maintenance free room availability as bad but they are not affecting the final rating.
8. Most of the students are feeling that library and faculty interaction are good but gave an average rating for the institution so these are not the factors to be improved at present to increase the rating.
9. Nearly 50% (nearly according to number of people gave their responses) of the students are willing to recommending the institute.
